

KOREAN MINOR

Korea occupies a place of significant geopolitical, economic, and cultural importance in the world. It is a unique country where five thousand years of history and tradition coexist with the most advanced technological and economic development. It is also a place where political and ideological differences divide the country into two Koreas (Republic of Korea, or South Korea, and Democratic Republic of Korea, or North Korea) that maintain one of the world's most fortified military zones. The Korean peninsula is home to over 72 million ethnic Koreans (North and South combined) and over 1.3 million recent migrants from all over the world. Approximately 7 million ethnic Koreans have migrated to other countries and have established diasporic communities in over 150 countries. The Korean language is spoken by over 75 million people around the world and ranks 13th among the most used languages in the world.
